Zverev V. V. Medical Microbiology, Virology, Immunology : textbook : Vol. 2 / V. V. Zverev, M. N. Boichenko. - Moscow : GEOTAR-Media, 2020. - 392 с. - ISBN 978-5-9704-5719-1. - Текст : электронный // ЭБС "Консультант студента" : [сайт]. - URL : <https://www.studentlibrary.ru/book/ISBN9785970457191.html>

This publication has been prepared by staff members of Microbiology, Virology and Immunology Departments of I.M. Sechenov First Moscow State Medical University, Pirogov Russian National Research Medical University, A.I. Yevdokimov Moscow State University of Medicine and Dentistry, Pavlov First Saint Petersburg State Medical University, S.M. Kirov Military Medical Academy, State Medical Universities of Omsk, Orenburg, Chelyabinsk.

The textbook is comprised of two volumes, which include 19 chapters, sequentially introducing the issues of general and special microbiology, virology, and immunology.

The material presented in both volumes is significantly revised according to the modern science trends and supplemented by illustrations, tables and figures. The textbook is composed in compliance with the approved official educational program, and is recommended for the students of the departments of General Medicine, Pediatrics and Preventive Medicine.

**Epifanov V. A. Physical therapy : tutorial guide / V. A. Epifanov, A. V. Epifanov. – Moscow : GEOTAR-Media, 2020. – 576 p. : ill. – DOI 10.33029/9704-5614-9-PHY-2020-1-576. – ISBN 978-5-9704-5614-9**

This tutorial guide was prepared by lead experts in the field of physical therapy in accordance with the new program for students (trainees) of medical universities (Medical Rehabilitation, section Therapeutic Physical Culture). It takes into account modern achievements of medical science, which have led to a change in views on the methodology of rehabilitation treatment. Clinical and physiological substantiation of the use of therapeutic physical culture in complex therapy of patients and persons with disabilities is presented in sufficient details. The book is based on the modern principles of prescribing various means of physical therapy using motor mode, massage, manual and psychotherapy, occupational therapy, hippotherapy, kinesiotherapy, etc. The methods that are most widely used in various diseases and injuries of the central and peripheral nervous, cardiovascular and musculoskeletal systems, respiratory organs, metabolism, and other metabolic diseases are widely covered and presented in the rehabilitation programs. Each chapter includes clinical symptoms and diagnosis of the underlying disease (damage), which enables to customize the rehabilitation programs.

The tutorial guide is perfectly illustrated, contains a large number of diagrams and tables, some sections provide complexes or a list of special physical exercises.

The edition is intended for students of medical universities studying in the specialties of General Medicine and Pediatrics in the discipline of Medical Rehabilitation, trainees of postgraduate education departments, interns, clinical residents, graduate students, and will also be useful for specialists working in practical healthcare.

**Tsygankov B. D. Psychiatry : textbook / B. D. Tsygankov, S. A. Ovsyannikov. - Moscow : GEOTAR-Media, 2020. - 464 с. - ISBN 978-5-9704-5533-3 - Текст : электронный // ЭБС "Консультант студента" : [сайт]. - URL : <https://www.studentlibrary.ru/book/ISBN9785970455333.html>**

The textbook meets the requirements of the valid State Federal Educational Standard and Psychiatry Curriculum. The textbook contains information on works of outstanding psychiatrists, scientists who not only have identified the basic psychopathological symptoms and syndromes but separated out individual nosological forms of psychoses.

In the section dedicated to general psychopathology, descriptive psychopathology in evolutionary forming categorical apparatus of the semiotics of mental diseases is expounded. In the section dedicated to specific psychiatry, the authors consequently prove the significance of clarity of mental diseases basic definitions with analysis of systematization of psychoses and taking into account of the dichotomy nosology-symptomatology and content of ICD-10.

It has given the especial matter to the diagnostic and treatment of schizophrenia. Borderline mental disorders (neuroses, posttraumatic stress disorder, psychopathies) are described.

The textbook is intended for students of medical institutions of higher education.

**Yushchuk N. D. Infectious diseases: textbook / N. D. Yushchuk, Yu. Ya. Vengerov. - Moscow : GEOTAR-Media, 2020. - 464 с. - ISBN 978-5-9704-5504-3 - Текст : электронный // ЭБС "Консультант студента" : [сайт]. - URL : <https://www.studentlibrary.ru/book/ISBN9785970455043.html>**
